

Georgia Promise Scholarship: Approved Service Providers (2025/26)

- List reflects service providers approved as of: **3/17/2025** (application review is being finalized for service providers that applied in the window ending February 7, 2025)

- If families do not see a service provider of interest on the list, they may encourage them to explore program eligibility requirements and apply in the next service provider application window open from April 1, 2025 to April 30, 2025.

- This list is meant to be informative for families as to the service providers approved to participate in the program. However, in order to receive payment of program funds, **all service providers must also receive approval for eligible expense offerings**. Eligible expense categories may be found on mygeorgiapromise.org, and the specific **approved product/service offerings will be available on the program marketplace for participating families once funding is awarded in July**.

- **Reimbursements will not be made under any circumstances**, with the exception of eligible transportation expenses (more information to come soon).
