

Georgia Promise Scholarship: Approved Service Providers and Vendors (2025/26)

- List reflects service providers and vendors approved as of: 8/25/2025

- If families do not see a service provider or vendor of interest on the list, they may encourage them to explore program eligibility requirements and apply to be a service provider or vendor.

- This list is meant to be informative for families as to the service providers and vendors approved to participate in the program. However, in order to receive payment of program funds, all service providers and vendors must also receive approval for eligible expense offerings. Eligible expense categories may be found on mygeorgiapromise.org, and the specific approved product/service offerings will be available on the program marketplace for participating families once funding is awarded in July.

- Reimbursements will not be made under any circumstances, with the exception of eligible transportation expenses (more information to come soon).
